- c. The refund policy is to be designed as to ensure that NOMLA retains adequate funds to cover cost attributed to the player leaving the Association.

7. Playing Up

- a. Player movement is governed by the BCLA, TOMBLC/IFLC and NOMLA's operating policies.
- b. NOMLA does not believe it to be in a player's long term interest to permanently play in a division older than their own age. Requests by parents will not be considered sufficient cause for NOMLA to allow players to permanently play for a team of higher age. In rare instances, where a player has obviously outclassed his/her peers a Coach may, with the parent's approval and most importantly the players desire, make a recommendation to the Executive that the player be allowed to play with the next highest age group. In no case will a player be allowed to advance more than 1 division past his/her peers. In subsequent years, the situation must be reviewed by the Executive to determine if the player should continue to advance ahead of his/her peers or if he/she should remain in the division for an additional year and be reunited with his/her own age. The latter should be the normal decision of the Executive barring substantial evidence of the player's ability to continue to outclass his/her peers and still has the desire to move up to an older age group.

8. Member Conduct

- a. All players and teams are expected to show good sportsmanship, fair play and respect for others.
- b. No player, coach or spectator shall use profanity, smoke, or consume alcohol during any game or practice.
- c. Players are bound by the General Rules of Conduct listed in Section J. of this manual.

C. Teams (Box Lacrosse)

1. Team Selection

- a. The Novice division is played as a house system and all teams must be balanced.
- b. TOMBLC operates as a tiered playing model from Peewee up to Midget.
- c. Any division with more than one team will have the first team out in the A2 scheduling pool.
- d. All other teams will be balanced.
- e. A minimum of three (3) Player evaluations will be conducted and be used as the basis of selection to the A2 calibre team.
- f. No player is to be assigned to the A2 team unless they attend two (2) of the three (3) player evaluation sessions unless the player has a medical exemption or the player has notified the Coaching Co-ordinator of a scheduling conflict.
- g. If a player attends all three evaluations, the player's lowest scoring evaluation will be removed from their total evaluation score.
- h. Players are encouraged to play for the highest calibre team they are selected for. If after team selections are made in the minor box or field sectors and a player declines to play or changes their mind about the team they were selected for, they must apply to the executive in writing. The executive will investigate the provided rationale and shall place the player on the appropriate team. If the transfer of the player would cause a player from the lower team to be bumped, the transfer request will be denied.

- i. For selecting players to play on the A calibre team, the coach will choose based on the following criteria:
 - i. Any of the top 60% (to a maximum of 20 players) of evaluated players
 - ii. An additional 2 “coaches choice” players from the entire age group
 - (a) The coach will provide a rationale to the coaching co-ordinator in the selection of the “coaches choice”.
 - (b) The executive reserves the right to deny the “coaches choice” if it is felt that the rationale is not in the interest of the teams, players or membership
- j. Coaches will advise players personally (by phone or letter personally delivered to player) of team placement. Under no circumstances are players to be released by email.
 - i. All players must be individually notified by the head coach of the higher calibre team.
- k. Player evaluations will be further used to balance the 2nd and 3rd teams in a division (if applicable)
- l. For all divisions and levels, player evaluations, team selection and roster finalization will be completed by April 20 of each year.
- m. There will only be one goalie per team unless NOMLA has more goalies than teams. The Coaching Co-ordinator will decide which team(s) is assigned second goalies with the approval from the NOMLA executive.
- n. All coaches will participate jointly in running of these evaluation camps or practices to ensure that all coaches have an equal opportunity to work with the young players and evaluate their skills. In conjunction with the Coaching Coordinator and Division Manager (if applicable) the coaches will jointly rate the skills of all players and make their selections by way of a rotating draft until all available players have been selected as defined in the Player Draft Policy.
- o. The Association is committed to the athlete having fun first and foremost and believes that this can best be achieved by having each individual, and thereby collectively the team, play in the most balanced league achievable.

2. Protecting Players

- a. While the Association recognizes the convenience sometimes accorded by having friends or neighbours of one player playing on the same team, it firmly believes that there are many benefits to be had by each athlete being exposed to a new group of friends and comrades. This is true not only in one year but also from year to year.
- b. It is also recognized that there are legitimate reasons for having players protected. These include car-pooling and family issues.
- c. The following criteria will be considered by the coaching coordinator:
 - i. Requests must be in place at the time of registration.
 - ii. Requests must be written by the parents or guardians of the player(s) stating reason and specific needs of the request
 - iii. Requests must be received by the coaching coordinator at least 2 days before the draft begins.
 - iv. Legitimate requests only, requests are not to be made purely for convenience.
- d. No protection of players shall be allowed on the basis of them playing for a particular coach or with particular team-mates and indeed such a practice will be discouraged at the youngest ages of the sport.

- e. A coach may only "protect" his child to the extent described in the Player Draft Policy. That is, the coach must use one of his/her draft selections to choose his/her child in the appropriate round of the draft and then the next pick moves to the next teams coach. There is no unlimited or automatic protection right.

3. Player Evaluations

- a. Player Evaluations
 - i. Player evaluations shall be conducted for each playing division from Novice to Midget each playing season and each registered participant should be given equal opportunity to participate.
 - ii. Player evaluations shall be organized by the Coaching Co-ordinator and conducted as per the following:
 - (a) Evaluators should, if possible, be chosen from the ranks of the Senior and Junior personnel and/or coaches from outside the division being evaluated.
 - (b) A ratio of 1 evaluator per every 6 players will be set
 - (c) No evaluator may evaluate the same player more than once.
 - (d) A minimum of 3 evaluation sessions should be made available for players to participate in.
 - iii. All Player evaluation sheets from evaluations and/or tryouts are to be collected by the Coaching Co-ordinator and held until such a time as all players are placed on teams. The Coaching Co-ordinator will provide the information and sheets to the executive when requested. Once players are placed on teams, the sheets will be turned into the executive and will become part of the players' portfolio files and are held by the Coaching Co-ordinator.
 - (a) The evaluation sheets and player profiles are to be kept in the strictest confidence and NOT to be shared with any parents or players as they contain information on more than one player and therefore are personal information that cannot be shared.
 - (b) Coaches WILL NOT have access to evaluation scores.
 - iv. The evaluation page will be standardized before each season and will be used for all players for the current years' evaluations.

4. Player Draft

- a. The number of players in each skill level should be dividable by the number of teams.

- b. The coaches' names shall be drawn to determine the order of the draft.
 - i. If a coach or assistant coach has elected to protect his/her child, the child is not picked until the draft has reached the skill level assigned to that child. (For example; if the child is in skill level 2, then the child is not picked until all level 1 players have been selected.)
- c. The draft will start from the highest skill level (Level # 1) and proceed in rotation until all players have been picked at all skill levels.
- d. The Coaching Coordinator, or designate, will supervise the draft of each division, as he/she is ultimately responsible for balancing of the teams.
- e. Draft Guidelines:
 - i. Definition of a "round" – one complete round of picks by all coaches (for example: 4 team draft the 1st round is the 1st 4 picks. The 2nd round is 5th thru 8th pick)
- f. Order of draft is determined by drawing numbers from a hat.
- g. Last pick in each round takes 2 players. Order is reversed every round so that the last pick in each round gets the 1st pick of the next round. example (4 team draft):
 - i. 1 st thru 4th coach pick a player
 - ii. 4 th coach picks again followed by coach 3, coach 2, and coach 1
 - iii. 1 st picks again followed by 2, 3 and 4
- h. If the coach has a child(s) playing you must pick them in the round they are placed (if he/she is a 1st round pick he/she must be taken in the 1st round) unless you choose not to have your own child on your team.
 - i. Armstrong players should be grouped on a team (Armstrong players should not be by themselves on a team) drafting of Players from Vernon, Armstrong and Lumby should ideally be placed on teams based on their home community if possible.
- i. After the draft the teams are to be reviewed for Armstrong players/lefties/carpooling and other requests. Trades are allowed.
 - i. No trades after draft meeting is over unless agreed to by Head Coach and President
- j. Coaches must arrange for their team to be called and advised of practice and/or game schedule. Team managers could be given this task.
- k. Sections 4a – 4j do not apply for 2 team drafts for PeeWee and above.

5. Drafting Late Registrants

- a. The Coaching Coordinator, or designate, with the help of the division coaches, will determine the skill level of each late registered player. The players will be assigned to teams as follows;
 - i. Should a player miss part or all of the evaluations, that player is not allowed to automatically be placed with the first or highest level team. The decision as to which team the player plays on will be based on the decision voted on by the Executive and which coach wants the player. Generally, a player must begin on a lower level team and should that player be skilled enough to play up, can be placed on the higher level team by playing up the required number of games.
 - ii. The team with the fewest number of players. (Coaches names will be drawn to determine the order of selection.)
 - iii. After the teams all have the same number of players, the Coaching Coordinator will assign players to coaches or teams in an attempt to improve balance among teams.

6. Balancing of Teams

- a. For the teams that are balanced, after each team has the opportunity to practice together, it is recommended to have a scrimmage with other teams in its division to see if the draft process appears to have worked well. If obvious inequalities exist, the coaches will work with the Coaching Coordinator to resolve them prior to the start of league play.
- b. If the Coaching Coordinator deems it wise, a mini round robin tournament will be played by all teams in the division to test the balance.
- c. The Coaching Coordinator along with Executive approval has the authority and the duty to transfer as many players as necessary from team to team to ensure the closest possible balance in the division prior to the commencement of league play.

7. Team Size

- a. Guidelines for individual team size;
 - i. Mini Tyke & Tyke - to be developed after experience with 3 on 3 play.

 - iii. Midget - up to 20 players
- b. The Executive will determine final team size for all teams after the final registration date is passed and base their decision on the number of registrants at each age group.

8. Cancelled Games or Practices

- a. Due to the very short intense lacrosse season it is strongly recommended that every effort must be made to utilize all practice floor slots and attend all scheduled games, home or away.
 - i. If a scheduled practice conflicts with a league game or attending a sanctioned tournament contact the scheduler as soon as possible and try to switch practice times or have your time used by another team. (Failure to do so will result in your team covering the costs of the unused floor time.)
 - ii. If a team is unable to make a scheduled league game contact the scheduler as soon as you receive your schedule and see if there is anything that can be done. Through TOMBLC operating policy you are not allowed to reschedule games other than to attend 1 out of town tournament. If you fail to cancel a game with proper notice (as per TOMBLC guidelines) your team will be responsible for costs incurred in floor and referee fees. This is for home or away games.
